

Patient Name: Nipuni Yashodha Kumari

DOB: 18/01/1996 Sex: Female

Ref. Doctor: Dr. Tehnlyat Iqbal

Radiologist: Dr. Sarah Mohamed

Study Date: 02/11/2022

MEGA SCAN
the right choice

XRAY RIGHT FOOT AP AND OBLIQUE VIEWS

FINDINGS:

Minimally displaced spiral fracture noted in the shaft of the second metatarsal with avulsed/chip fragment.

Regular cortical outlines in the rest of the visualized bones.

No lytic or sclerotic lesion.

The tarsal, rest of the metatarsals and phalanges are normal.

The tarso-metatarsal and metatarso-phalangeal joints appear normal.

Soft tissues swelling noted.

IMPRESSION:

Minimally displaced spiral fracture in the shaft of the second metatarsal with avulsed/chip fragment and soft tissue swelling.
