

**PH DIAGNOSTICS**

ISO & JCI Accredited Lab

Patient ID : 2111229286

Age/Sex : 44 Years FEMALE

Reg. Date : 21/Nov/2021 05:43PM

Patient : MRS. Yin Yin Aye

Print Date : 21/Nov/2021 08:14PM

Ref. Doctor : Dr. MANJUSHA LISLAL

Client : NEXT PCP

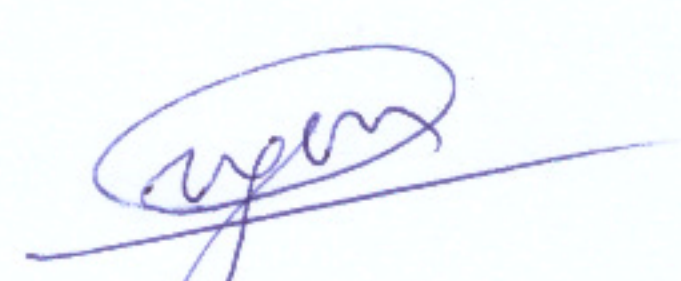

**ULTRASONOGRAPHY OF ABDOMEN AND PELVIS****Findings:**

- Liver: Appears normal in size (11.4 cm), shape and echogenicity. No focal lesion seen. No IHBR dilatation seen.
- Portal vein and CBD appears normal.
- Gall Bladder: Well distended with a normal wall thickness. There are no calculi seen in it. No pericholecystic collection seen.
- Pancreas: Appears normal in size and echotexture. No focal lesion seen.
- Spleen: Measures 8.5 cm and appears normal in size and echotexture. No focal lesion seen.
- Kidneys: Right kidney measures 9.5 x 4.3 cm (cortical thickness 1.0 cm) and the left kidney measures 9.8 x 4.6 cm (cortical thickness 1.0 cm). 2 mm and 3 mm sized calculi in upper pole calyces of right kidney. 2 mm calculus in upper pole calyx of left kidney. Rest both kidneys appear normal in size, shape & echotexture. No hydronephrosis seen on either side.
- Visualized bowel loops appear normal. Aorta and IVC appear normal.
- Urinary Bladder: Well distended and normal in shape and contour. No intrinsic lesion or calculus seen in it. Bladder wall is of normal thickness. UVJ clear.
- Uterus: Anteverted and measures 12.1 x 8.6 x 8.2 cm in size. 64 x 55 mm and 48 x 41 mm sized intramural and subserosal fibroids in anterior wall of uterus. 8 x 6 mm sized intramural fibroid in posterior wall of uterus. 38 x 33 mm sized subserosal fibroid along left lateral wall of uterus. Endometrium 8 mm in thickness and appears normal.
- Ovaries: 32 x 22 mm simple ovarian cyst on right side. No septations. No left adnexal mass.
- No free fluid. No lymphadenopathy.

Impression:

- 2 mm and 3 mm sized calculi in upper pole calyces of right kidney.
- 2 mm calculus in upper pole calyx of left kidney.
- 64 x 55 mm and 48 x 41 mm sized intramural and subserosal fibroids in anterior wall of uterus.
- 8 x 6 mm sized intramural fibroid in posterior wall of uterus.
- 38 x 33 mm sized subserosal fibroid along left lateral wall of uterus.
- 32 x 22 mm simple ovarian cyst on right side.
