

LABORATORY REPORT

Name	: ALI MARDAN SHAH SHAUKAT EHSAN	File. No.	: AAL02-440991
DOB/Gender	: 07-10-1993 (31 Yrs 4 Month 26 Days/Male)	Referral Doctor	: Dr. Aisha Umer
Lab No.	: 22250640331	Referral Clinic	: Citicare Medical Center LLC
Request Date	: 05-03-2025 21:48:05	Clinic File No	: 46027
Insurance	: ALMADALLAH HEALTHCARE MANAGEMENT		

CLINICAL BIOCHEMISTRY

Test Name	Result	Units	Ref. Range	Method
Microalbumin	< 3.0	mg/L	Please see comment	Immunoturbidimetric

Kindly note that no normal range is given for Microalbumin of Spot Urine Sample, and the normal range of 24 hrs collection is (less than 30 mg/day).

To evaluate the diagnostic performance of the micro-albumin measurements in urine sample, it is suggested to request one of the following:

- Microalbumin - 24 hrs
- Microalbumin/Creatinine Ratio - Spot Urine

Due to variability in urinary albumin excretion, atleast two of three results measured within 6 months should show elevated levels before a patient is designated as having microalbuminuria.

Exercise within 24 hrs, infection, fever, congestive heart failure, marked hyperglycemia and marked hypertension may elevate urinary albumin excretion over baseline values.

Sample Type : Random Urine

C-Reactive Protein (CRP)	102.00^H	mg/L	Negative < or = to 5.0	Immunoturbidimetric Assay
---------------------------------	---------------------------	------	------------------------	---------------------------

CRP is an acute phase protein whose concentration rises non -specifically in response to inflammation. CRP values should not be interpreted without a complete clinical evaluation. Follow-up testing of patients with elevated values is recommended in order to help rule out a recent response to undetected infection or tissue injury. Please note Reference Range Reviewed w.ef 15/10/23

Remarks:

Test result to be interpreted in the light of clinical history and to be investigated further if necessary.

Sample Type : Serum

----- End Of Report -----

These tests are accredited under ISO 15189:2022 unless specified by (*)

Sample processed on the same day of receipt unless specified otherwise.

Test results pertains only the sample tested and to be correlated with clinical history.

Reference range related to Age/Gender.
