UNDIGESTED FOOD PARTICLES	Present	A	/HPF	Absent	Microscopy
OTHERS	-		/HPF	Absent	Microscopy

Sample type: Stool

INTERPRETATION:

- This is a screening test. In certain scenarios additional / alternative testing for confirmation may be required. Kindly correlate clinically.
- Please note, in case of a grossly visible stool parasite entire worm/ segment being passed in stool specimen: Please collect such entire parasite worm/ segment as such in 70% alcohol in a sterile container or in 10% formalin in a sterile container.
- If stool ova and parasite / worm segment is suspected clinically, please submit at least 3 samples collected on alternate days (i.e. Day 1, Day 3 & Day 5) for optimal results.
